OUR ORIGIN

Three Decades of Protecting Complex Projects

ESSGEE Projects was founded by Satya Gady on a single conviction: risk identified early is risk controlled. Drawing on 30+ years across Australia's most demanding infrastructure and resource sectors, we operate as a seamless extension of your leadership team — applying structured

governance from feasibility through commissioning. No templates. No junior resourcing. Principal-led, every time.

Risk-Led Governance

Every engagement opens with a structured risk assessment that identifies and neutralises threats before they materialise.

Independent Assurance

Principal-led oversight that protects your capital investment and delivers schedule certainty.

Executive Transparency

Board-ready reporting with live risk registers, earned-value metrics, and governance dashboards.

WHAT WE DO

Our Capabilities

Full-spectrum consulting across the project lifecycle. Every engagement is principal-led — no junior resourcing, no templates.

Project Management

End-to-end delivery from feasibility through commissioning, tailored to your project's risk profile.

Risk & Governance

Structured risk registers, governance reviews, and independent assurance that give boards confidence.

Contract Administration

Expert management across AS2124, AS4000, NEC and GC21 — protecting your contractual position throughout.

Stakeholder Management

Engagement strategies that build trust, manage expectations, and maintain social licence.

Program Delivery

Program-level governance, interdependency tracking, and benefits realisation across complex portfolios.

Cost & Schedule Control

Earned value management, critical path analysis, and executive reporting that flag issues early.

Procurement Advisory

Tender strategy, evaluation methodology, and probity frameworks that deliver defensible outcomes.

Construction Oversight

Independent verification of progress, quality, and compliance on active construction sites.

SECTOR EXPERIENCE

Where We Operate

Deep sector knowledge across Australia's most complex and high-value infrastructure environments.

Transport & Roads

Highway duplications, interchange upgrades, and multi-modal transport hubs across metropolitan and regional corridors.

Water & Utilities

Treatment plants, distribution networks, and pump stations — including live brownfield upgrades with zero service interruption.

Resources & Energy

Mining infrastructure, gas processing, renewables, and heavy industrial facilities in remote and complex environments.

Social Infrastructure

Hospitals, schools, justice facilities, and community centres delivered to government standards with community sensitivity.

Defence

Security-classified facility upgrades and base redevelopments with appropriate clearances and Defence estate compliance.

Urban Rail

Rail corridor extensions, station builds, and signalling infrastructure across high-profile, multi-contractor programs.

Built Environment & Real Estate

Commercial developments, high-rise, mixed-use and estate projects across metropolitan and regional markets.

Energy & Renewables

High-voltage substations, transmission lines, renewable generation (wind, solar, BESS) and power infrastructure under EPC contracts.

TRACK RECORD

Proof of Delivery

Measurable outcomes across AUD 2.7B+ in managed project value — across Australia, APAC and the Middle East.

Major Projects

AUD 2...

Principal-Led

Opportunity Pipeline Built

AUD 480M

Regional Highway Upgrade Program

Challenge: 45km multi-stage duplication with live traffic management.

Outcome: Delivered 3 months ahead of schedule. Zero lost-time injuries. 4% under budget.

AUD 220M

Water Treatment Plant Expansion

Challenge: Brownfield expansion of an operating facility serving 500,000+ residents.

Outcome: Zero service interruptions across 18 months. All regulatory targets met.

AUD 350M

Defence Base Redevelopment

Challenge: Security-classified upgrade with concurrent base operations and strict access controls.

Outcome: Full Defence estate compliance. Practical completion achieved on schedule.

AUD 1.2B

Urban Rail Corridor Extension

Challenge: 12km extension through dense urban areas with 4 new stations and 6 contractor packages.

Outcome: Community disruption 40% below forecast. All packages successfully coordinated.

CLIENT VOICES

What Our Clients Say

"ESSGEE brought a level of governance rigour we had never experienced before. Their risk-led approach identified critical issues months before they became problems, saving us significant time and capital."

Director of Infrastructure — State Government Agency

Urban Rail Corridor Extension · AUD 1.2B

"Principal-led from day one. Satya and his team were in the field, in the meetings, and across every contract interface. The outcome speaks for itself — delivered early and under budget."

Project Executive — Major Resources Company

Regional Highway Upgrade Program · AUD 480M

"We selected ESSGEE for their depth of experience and their no-template, no-junior-staff commitment. They delivered exactly as promised — transparent, rigorous, and outcome-focused."

General Manager, Capital Works — Water Utility

Water Treatment Plant Expansion · AUD 220M

OUR LEADERSHIP

Principal-Led. Every
Engagement.
Satya Gady

Executive Director | Strategy, Operations & Growth

Satya is an Executive Director and infrastructure leader with 30+ years' experience leading strategy, P&L and governance for complex capital delivery across Australia, APAC and the Middle East. He builds high-performing teams, sets clear commercial guardrails for bids and delivery, and works closely with boards, clients and regulators to drive safe growth, stronger margins and predictable outcomes. Every ESSGEE engagement is personally led by Satya — ensuring clients receive senior insight at every critical decision point.

OUR TEAM

Specialists. Not Generalists.

Deep discipline expertise across the full project lifecycle — deployed where it matters most.

Jordan Kaur

Risk & Governance Manager

Integrated risk registers, governance frameworks, and programme assurance across major capital projects.

Daniel Cho

Cost & Schedule Lead

Earned Value Management, cost forecasting, Primavera P6 scheduling, and contract variation management.

Priya Nair

Contract Administrator

NEC3/4 and AS4000 contract management, dispute avoidance, and procurement advisory.

Tom Walsh

Stakeholder & Community Advisor

Community engagement strategies, government liaison, and communications frameworks for complex projects.
